POOL MAINTENANCE

At Keystone Custom Decks, outdoor living is our primary focus and passion. Therefore, wanting to offer even more outdoor enjoyment to our customers, we are excited to be able to serve you further with our pool division, Keystone Custom Pools. Our goal is to give you the aquatic outdoor living oasis you desire in one-stop and hassle free experience. Call today to get started on the next relaxing and refreshing addition to you home. 717-355-0592

THE BACKYARD SWIMMING PROCESS

Getting Started

We offer a complimentary consultation in the comfort of your own home. The main goal with this meeting is to get to know you and get a feel for your backyard swimming needs. We will discuss design, products, budget, and ideas. This is a very vital part in creating a great foundation for your project.

Design Phase

Back in our office, our design team will begin creating your project based on the conversations from the initial consultation. We will create drawings, 3D renderings, and a vivid video walkthrough. Once the design is complete, we will put together a very detailed and accurate quote.

Design Presentation

Now the real fun starts. We will set up a meeting with you at our showroom to present the plans and the quote. The design presentation is one of the highlights for us, as we see your excitement as all the possibilities and your dream swimming pool are presented in 3D renderings and videos.

Contract

When you are comfortable and ready to move forward, we will finalize the design, colors, products, and details. Once the contract is signed and a deposit is received, we put you on our schedule and begin plans to make your pool a reality.

Final Drafting and Permitting

The next step is to finalize the drawings and apply for the required permits. As soon as the permits are approved, our scheduler will coordinate the starting date with you. You will be notified each step of the way as it clears each phase.

Installation

This is when it all comes together. All you need to do is sit back and watch your backyard swimming dreams become a reality! The project manager that is assigned to your project will be available every day to keep things running smoothly and will be the main point of contact throughout the entire project.

Enjoy

From start to completion, we strive to make this a smooth and easy process for you. Our goal is to leave you with a completed project that you can enjoy for years to come. You are now ready to start creating memories and enjoying your very own backyard oasis with family and friends!
